is now offering its award winning:

# Drought tolerant Plants workshop

[from its WaterWell Homeowner Series]

SEPT 10th 2011

@9am-12pm

1147 S. Grand Ave. Glendora, CA 91740

This class is designed to teach homeowners the importance of using less water and drought tolerant plant materials in their gardens. Homeowners will become familiar with various trees, shrubs, and groundcovers that are readily available and well suited for water efficient gardens.

Carpenteria californica

Eriogonum umbellatum

Rosa californica

Each class in the WaterWell Homeowners Series is designed with the homeowner in mind. Each participant learns techniques about drought tolerant plants in easy to understand terms, which can be applied immediately at home.
